

115

With F.M.L.

Another inch and a half rain fell Tuesday afternoon in the Milam area. If the Little River and other tributaries didn't go out, it isn't because conditions are not enough to send them out.

I was "canoeing" the other night down almost any street in North Cameron during that 5-inch flood. There was no place else for water to go. And there isn't still.

From drought to monsoon in a few days.

I blame Carmen. Never accuse a lady, especially a lady hurricane of being petulant.

115-115-115

In commenting on all the new TV shows that month, one writer noted that about the same number, perhaps about 25, started a year ago on the three networks. Only three or four survived to Christmas.

Is there anything more forgettable than a cancelled TV series?

I can't remember.

115-115-115

Somebody left a commode out by KMIL the other day prior to the Battle of the Bell. Someone said, and 115 didn't see it, there were "choice" comments on it, written by Rockdale partisans who left it there.

Guess where it was found after the Yoemen kept the bell for the fourth consecutive time, 10-0 the other night at Rockdale?

On the Tiger 50 yardline.

115-115-115

The former President's transition fund of \$850,000 was cut to \$398,000.

Particularly noted was the removal of all \$100,000 requested for construction of a vault for all White House tapes and papers of the Nixon Administration.

A year or two from now, people will be asking the same question Mr. Nixon must now ask: "Why was all that stuff recorded?"

Council Has Complaint About Street Flooding

Residents of East 18th St. appeared before the city council Tuesday evening voicing complaints about effects of high water on their street following heavy rains.

Mr. and Mrs. Jerry Gallimore and Mrs. Joe Kopriva related how their sewer lines were affected by the flooding, with reports of floor tile coming up and sewerage coming up into bathtubs.

Mayor Gene Blake and council members agreed the residents have "a real problem," and said it will take a major storm drain project to properly drain the area, at a cost of at least \$150,000.

Blake told the residents that the problem is one known by the city planning commission and relief may come within two years using funds the city will receive under a new federal program. He explained that the first year's program has already been drawn up to include a sewer project in west Cameron, a playground near O. J. Thomas School and removal of delapidated houses.

In other business council heard Forrest Sapp, representing the Little League Association, ask for consideration when the city is spending revenue sharing funds for recreation, to help the association in construction of another new ballfield at the airport.

Street paving was discussed with facts showing that some residents paid for paving two years ago and no paving has been done. The mayor recommended that these paving funds be put in separate accounts for each project. Works Supt. Bill Dase was

instructed that he can start on the base work on Houston St. as soon as all financial arrangements by residents have been made.

It was also recommended that some old asphalt be torn up and the streets graveled until paving can be done.

Council turned down entering into a service contract that would cost \$103 a month for service on city radio equipment.

A fire alert system was demonstrated by a company representative, however a fault in a microphone cut the demonstration short before it was completed.

The mayor complimented the police department for its help in roadblocks and search for a wanted man in the Temple area over the weekend.

A discussion of the proposed city budget was cut and a meeting set for 2 p.m. September 20 to finish discussion and for adoption of the new budget.

The council heard an invitation from Joe Hanover of the Texas Highway Department asking the council to come to an open house at the department in Bryan during the week of Sept. 22-28 marking National Highway Week.

United Fund Goal Is \$10,000

Nine Agencies To Benefit From Drive

The Cameron United Fund has set a goal of \$10,000 for its 1974 commitments which include nine organizations.

Plans for the annual fund raising drive were made at a UF committee meeting held September 16, led by Monroe Fuchs, this year's UF chairman.

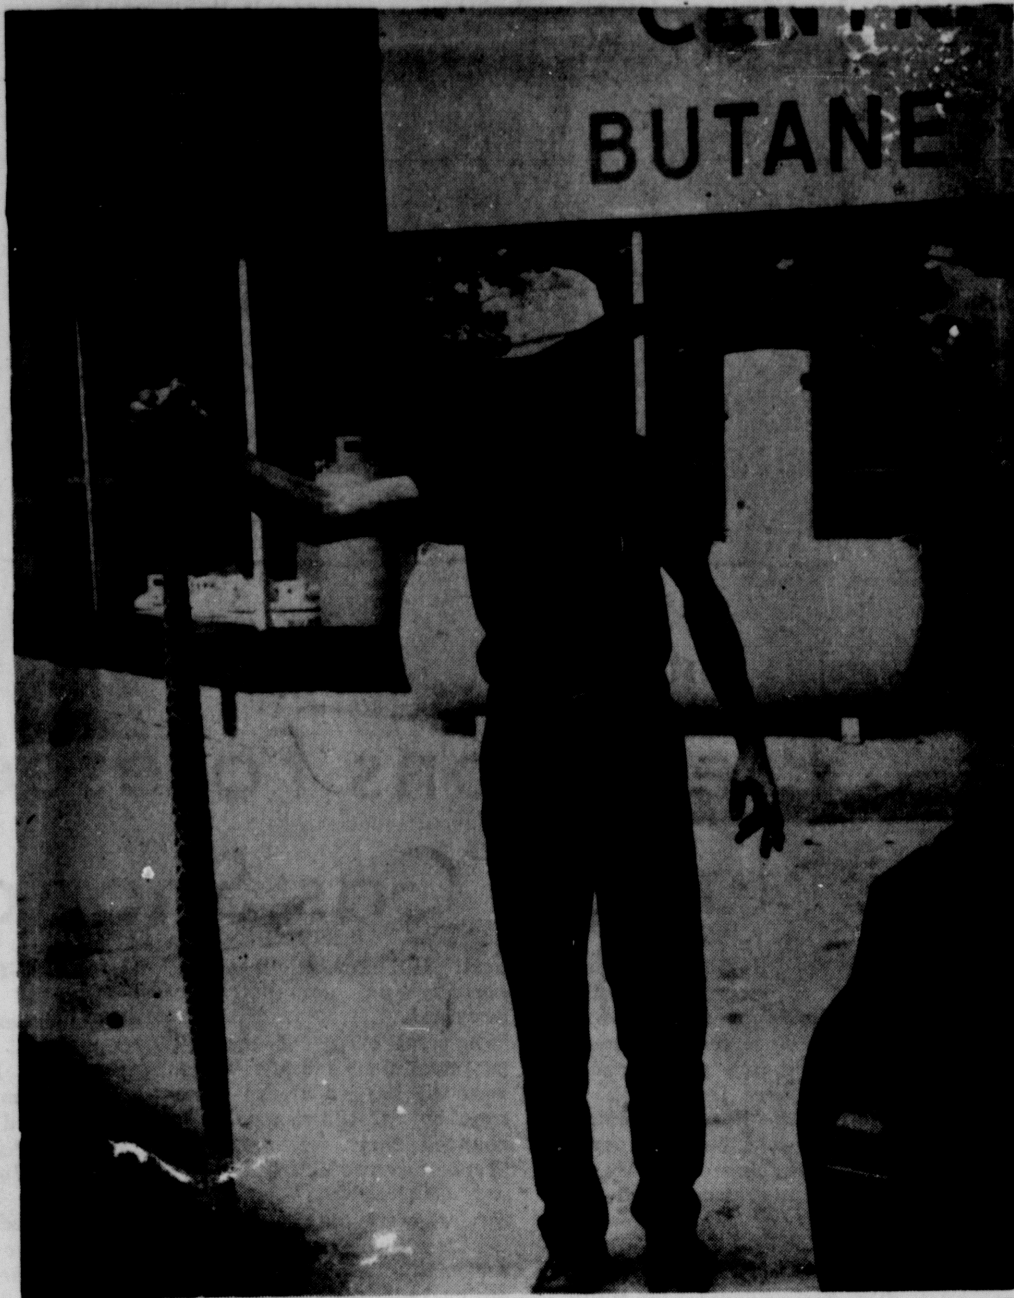

The annual business drive will be held October 1-11. All businesses and offices that have 100 percent contribution by all their full time employees will receive memberships in the "100 percent Club." A certificate and special recognition in the community will be given to those in the 100 Percent Club.

The house to house campaign will start October 21 and will be headed by Douglas Buck.

The following nine organizations will receive support from this year's United Fund drive: Central Texas Council on Alcoholism, Cameron Day Care Center, Boy Scouts of America, Milam County Junior Livestock Show Building Fund, Salvation Army, Cameron Little League, Girl Scouts of America, American Red Cross, and the Cameron Community Center.

The budget committee had requests totaling \$14,709.80. Last year only \$6,917.88 was raised to support these groups and organizations in the community. This year the budget committee decided that more money should be retained in the local community.

"Everyone's help and support in the community is needed and would be appreciated in reaching our goal," Fuchs stated.

THIS RATTLER should have stood in bed, instead of attempting to cross a country road in the daytime. A. B. Hairston shot the reptile with a .22 rifle he keeps in his truck. His wife, across the road from the snake, could hear it "blowing" rather than rattling.

Dairymen Caught In Price Squeeze

You've heard the old cliché about being caught between a rock and a hard place -- well, that's just where dairymen are finding themselves, and the future offers little encouragement.

"Texas dairymen are really in a critical situation," points out Dr. Randall Stelly, economist for the Texas Agricultural Extension Service. "Feed costs continue to jump while the price they receive for milk is dropping."

Sam Blayney, dairyman in the Ben Arnold - Vogelsang community area, bears this out with reports of rising feed costs, dropping milk prices, and the high cost of herd replacements.

Feed that cost \$100 a ton last summer now costs \$140 a ton, and prices for milk have been cut \$1.50 a hundred this summer.

Trouble is, when the wholesale price of milk is cut, which it is nearly every summer due to lowered consumption, the retail price at the grocery store is not cut. However, when dairymen get an increase in

the price per hundred the retail price is immediately hiked.

Blayney said a dairyman must have feed and grazing for his cows, and even the cost of grazing has doubled and sometimes tripled as in the case of fertilizer and baling wire.

He said nearly every day he gets auction notices in the mail, showing that another dairy farmer has given up and is getting out of the business.

Extra income could once be made off calves but with the low price of calves at the market that is no longer true. And replacement heifers for the herd cost around \$600, Blayney said. He added that he "couldn't keep calves last year they were selling so good."

Blayney has a herd of 62 cows, with 50 being milked. He uses artificial breeding which also is costly. Each cow is fed eight to 30 pounds of feed a day, being fed at each milking.

Culled cows, removed from the herd because of poor production,

bring only 20 to 25 cents a hundred at auction, while last year they brought up to 35 cents.

Elm Creek Dairy near Cameron is not suffering like the smaller dairymen, with its volume and sale of breeding stock.

Dr. Stelly explained that prices received by Texas dairymen are determined by a formula since the milk is marketed under federal market order rules and regulations. The base price is directly related to the price paid by processing plants in Minnesota and Wisconsin for manufacturing grade milk.

As far as the low prices are concerned, Stelly noted that some people blame the heavy imports of dairy products, which have tripled during the first part of 1974 compared to last year. A weakened consumer demand for milk and cheese has also affected prices.

"Although the October price for milk has been set at 10 cents per 100 pounds above the July price, producers see little relief from the cost-price squeeze that seems to be getting tighter," added Stelly.

Jury Turns Down

Suit Asking

Disability Status

A nine-woman, three-man jury voted "no" to a Giddings man's suit for total and permanent disability status in a case ended in district court Monday.

The case was that of Orange Lee Holloway Jr. versus Texas Employees Insurance Association.

The suit claimed that an accident in Alcoa's Rockdale Works powder room on May 3, 1971 caused Holloway to develop chronic lung trouble, including bronchitis and emphysema.

Holloway claimed that when a hose came off a safety mask he was wearing the powder entered his lungs.

An attempt for a settlement by the insurance company was turned down earlier by Holloway.

Jurors included Mrs. P. B. Tucker, Maydell Currey, James L. Patzke, J. R. Walker, Mrs. Daniel Hromcik, Alberta Quigley, Mrs. Phyllis Osborne, Lucile Michalka, Mrs. Milford B. Henry, Mrs. Aliene York, Ray Goeke and Mrs. Melissa Palomo.

the one-day drive.

"We welcome these new members," Chamber President L. W. Stroup Jr. stated, "and know that they will add much to the effectiveness and strengthen all activities of our Chamber."

The new members are:

Buddy Dulin, Jon Forsythe, Max Graham, Rev. Darryl Proffitt, Rev. Charles Lindley, Abate & Abate Grain Co., Maxine Fail, Judy McKinney, Roy Knight, Fletcher Exxon Service Station, Dr. John Vardiman, Falstaff Distributing Co., Kenneth Poole, Earl Griffin, Allen Dodson, Fuller & Edmondson Construction, Elliott Crook, F. E. Jackson, Dr. Daniel Smith, Woodmen of the World Life Insurance, Schiller Script Shop, Paul Nabours, Vivian Pittman, Jerry Bartley, Doris' Beauty Shop and Gene Lumpkin.

North Milam

Water Group

Plans Expansion

An expansion of the North Milam Water Supply Corporation is being planned, according to directors who met recently and employed an engineer to design the extension and improvements.

A new well and storage tank are included in the improvements.

The expansion is planned to serve the Maysfield to Branchville area, Jones Prairie, the area between Burlington and Rosebud and other areas within the existing system.

All persons interested in being served by the water supply corporation should make application for membership to Frank Jekel or any member of the corporation board of directors within the next two weeks.

The corporation will make application to the Farmers Home Administration for a possible loan to construct the extension. It is necessary to get the application in as soon as possible while funds are available, directors said.

For this reason, all interested persons should file their applications immediately as the loan application will have to go within the next two weeks.

Rogers Raises

Police Salaries

The Rogers city council voted to raise the salaries of the city's two police patrolmen, approving a \$50 per month raise for the fulltime patrolman and a \$25 per month raise for the parttime patrolman.

In other action the council voted to hire Ed Johnson of Temple as city attorney. Johnson is a partner in the Cuba, Johnson and Lagow law firm in Temple.

Council also discussed plans to meet state and federal requirements for the city's sewer treatment plant. The city's lagoon type treatment plant is obsolete by the standards and new standards must be met by 1976.

Soviets, US Facing Man's Future In Space

By Vincent Buist

MOSCOW

Reuter -- The Soviet launch of Soyuz-15 is another rehearsal for next July's planned Soviet-American linkup in space, but the crucial question, affecting man's future in space remains unresolved.

The world's leaders in space, the United States and the Soviet Union, are faced with the decision of what to do once the 1975 docking and joint space flight is completed.

To go it alone, projecting national and security rivalry from earth into the infinite dimension of stellar space, or to feel their way towards full scale space cooperation, mirroring political detente on the globe.

Promptness by the two space powers in resolving this crucial question will influence the timing of man's first planetary flight, so far envisaged for late this century or soon after the year 2,000.

But already the next major steps to prepare for deep space flights are being taken by Moscow and Washington, apparently with little more than casual exchange of scientific information, but without a co-ordinated Soviet-American action program

for the eighties and nineties.

These steps are the design and engineering of a space shuttle craft to ferry men and materials less expensively between earth and permanent space stations in earth orbit.

The space stations, multi-decked chambers to accommodate 20, 50 or even 100 scientists and technicians, could orbit either the earth or the moon.

Their role is a mixture of practical studies about earth to determine weather, ice pack movements, cyclones, floods, sources of pollution, forest fires, ore locations and a host of other bread and butter tasks.

And they will also be the space laboratories in which tests will be carried out on man's resistance to radiation and weightlessness on long inter-planetary space in preparation for man's first voyage of discovery into the solar system.

Inter-planetary flight with existing space engines will take months or years during which crews will have to fight against effects of prolonged weightlessness, grow their own food in space greenhouses, and ward off greater radiation hazards.

Some understanding between the

scientific communities of the Soviet Union and the U. S. seems already to have been achieved.

Professor Alexander Vinogradov, vice-president of the Soviet Academy of Sciences here and a Lenin-prize winner, has called for a pooling of global resources, foremostly Soviet and American to speed up creation of a reliable shuttle space craft.

Professor Petrov has expressed fears that unless this pooling takes place, the next stage -- manned earth and moon orbit Skylabs -- will prove impracticable with existing budgets and resources.

But this informal meeting of scientific minds between the two space powers has yet to be translated into specific terms and timetables and this calls for political decisions at the highest level.

Above all its calls for restoring high priority for space projects, a priority which began to slide in the U. S. following the successful moon landing in the sixties.

Scientists here appear to think that the time is ripe now for a long-term co-ordinated space research program in greater detail than has so far been considered.

Lignite Deflation...

We join those leaders in Dallas who voiced restraint as the means to control inflation.

About 70 government and industrial leaders in energy-related industries urged conservation of energy a first priority in holding down inflation.

One utility to our knowledge is actuating that effort in Texas. Texas Power & Light Co., of Dallas, is advertising that construction is underway to build additional lignite-burning plants, as well as a nuclear power plant, to cut the use of natural gas, which is costly and scarce. . . even in the day of 100 percent Texas proration.

The experiment with lignite as a source of power for modern industry is a dramatized success with Alcoa's Milam County operation, now its largest aluminum smelter. The example is set for scrubbing refuse from the effluent so that lignite and possibly harder coals, could be used on a wider scale for energy.

Lignite is apparently abundant in this part of Texas. It is likely abundant in other commercially lodes in this country. It is a solution, though not ideal by strictest pollution standards.

If a dollar buys less food because it pays more for transportation, it might be a sounder dollar spent for cheaper lignite sources while new oil and gas production open up in Alaska and in off-shore drilling.

Arab and nations with controlled economies find U.S. and Western European inflation to their advantage. It may put us on more amenable trade terms with them.

But first, the nation can hope to heed the need for inflation control, along the lines of conservation suggested by the federal and industrial leadership in Dallas.

Fourth Estate Big Place...

More than ever, your Herald views its role as an information center, 115-year-old "think tank", a microcosm of what macro-communications is all about.

Good things keep happening to Herald management and personnel because they take the view that modern institutions are still changing, particularly the print media.

The Herald evaluates itself before it criticizes other institutions. We do not recognize anger at editorial stands criticism or legitimate basis for attack on the whole function of this or any newspaper.

It is just possible that a lot of people in communications--print, audio or visual--agree with us.

The Fourth Estate is a big place. . .

"Low Down" FROM THE Congressional Record

By JOE CRUMP

(A Column for Readers Who Haven't Time to
Review the Congressional Record Daily)

Senator James L. Buckley (N.Y.)...The economic plight of the elderly living on fixed incomes during inflationary times is a problem which demands our immediate attention and our best efforts. To this end I have introduced S. 3396, the Cost-of-Living Adjustment Act, and S. 3775, a bill to create a cost-of-living index for the aged.

"While I hope for early passage of this legislation, I would also like to call attention to the successful private efforts of a single New Yorker who has persuaded 1,600 New York shopkeepers to give discounts to senior citizens. I ask unanimous consent that the story be printed in the Record." (excerpts of the article from the National Inquirer follow):
Women persuades 1,600

city stores to give big discounts to senior citizens. More than a half-million elderly people trying to live on fixed incomes in the face of ever-rising prices can now get discounts in 1,600 New York City stores--thanks to a 48-year old woman who felt something had to be done for them.

"This is my way to helping old people who are panic-stricken because of today's prices," said Maria Redo who for 2 1/2 years has been going from store to store in New York persuading shopkeepers to give discounts of up to 20 percent to the elderly.

The stores and shops that participate place green and white decals in their display windows to alert the elderly that they can get discounts.
To qualify, a senior citi-

zen only needs to show a Medicare or a special New York City transit card that allows him or her to ride at half-fare.

"I was doing welfare work at the Yorkville Republican Club just before Christmas, 1971, and it was pitiful to see how some of the old people were forced to live," Mrs. Alice Brophy, director of the Mayor's office for the Aging in New York, said. "Mrs. Redo has been more effective than a whole army of people in helping senior citizens--and she's done it alone."

GRASS ROOTS COMMENT

Mrs. Redo is the mother of two children and the wife of a Cornell Medical School professor.

Dateline Austin

Predictions Foresee Natural Gas Shortages

Gloomy predictions of increasing natural gas shortages during winter months were made to southern governors at their conference here last week.

Federal Power Commissioner Don S. Smith reported major pipeline operators expect natural gas supplies to fall 9.6 per cent below demand.

Smith forecast gas pipeline curtailments this winter will be 81 per cent greater than last year.

To sustain present levels of gas consumption would require discovery of "a new Alaska every year," the federal agency official told the governors.

FPC, according to Smith, has taken these steps to relieve impact of the shortage:

- Entered an order to allow 2,400 of the 3,900 smaller gas producing companies to sell interstate gas at 63 cents per thousand cubic feet, instead of the 42 cent wellhead rate permitted major producers.
- Reinstated emergency provisions to allow utilities to buy gas through pipelines for 60-day periods at market rates rather than lower, regulated interstate rates.

Texas Gov. Dolph Briscoe said the action would have little effect in Texas, where demands will keep prices far above the 63 cent rate.

INFORMATION SOUGHT—A Cleveland firm hired to survey tax values in 35 school districts sought tax appraisal and computer contracts with all 1,100 districts in the state.

Legislative Property Tax Committee Chairman Sen. H. J. Blanchard of Lubbock said the solicitation seemed "inappropriate" to him.

LPTC staff members expressed some concern that the firm would be reporting to the state on data paid for by the district. The firm is being paid \$382,000 by the state for its data on market value of district properties.

Some LPTC members also complained about slowness in getting a recodification of property tax laws as a guide to legislative improvements.

CRIME FIGHT MAPPED—Atty. Gen. John Hill has called for establishment of a statewide grand jury and a central information bank as weapons in the fight on organized crime.

At a law enforcement conference, Hill said state and local law officers must cooperate to combat the increased threat of major crime.

Governor Briscoe, meanwhile, said he plans to propose to the legislature again in 1975 a law to permit wiretapping where ordered by a court to gather evidence of organized crime.

DEPARTMENT SHAKEN—Texas Department of Labor and Standards got its third assistant commissioner in a week's time.

Commissioner Jackie W. St. Clair named Kirby Suggs of the Houston regional office after (1) firing Tommy W. Smith and (2) temporarily elevating Bob Hubbard, son of AFL-CIO State President Harry Hubbard, to the

post. Hubbard resumed position as administrative assistant.

A total of 10 of the department's 40 employees were discharged at the same time by St. Clair, who pronounced their job performances "unsatisfactory."

AG OPINIONS—The secretary of state may use statistical samplings or other reasonable means of determining adequacy of political party petitions for places on the ballot, Attorney General Hill held.

In other recent opinions, the attorney general concluded:

- Laboratory reports on retail dairy products and ground beef are subject to disclosure.
- An unlicensed person can perform professional nursing acts under direct control or supervision of a physician.

- Child abuse case records revealing the identity of the complainant are excepted from disclosure requirements.

- A Senate sub-committee (consumer affairs) rule permitting executive sessions to get testimony or evidence or confer with counsel conflicts with the open meetings law.

- County commissioners may sell land belonging to the permanent school fund and distribute money to county school districts, but the districts may not pay back to the county funds to create a vocational school.

- Counties may contract for minor children's custodial care.

- City councils must call, within 60 days of a valid petition, an election under the firemen's and policemen's civil service act. Actual holding of the election must take place within a reasonable time.

TEXAS AHEAD—Texas leads the nation in the percentage increase of new business corporations.

Secretary of State Mark White Jr. reported the number of business incorporations increased dramatically from 1,569 in May, 1973, to 2,513 in May, 1974. This is a 62 per cent increase for Texas, compared with a five per cent increase for the nation as a whole.

Coupled with the increase, however, is a rise in bankruptcies and business failures. There were 680 bankruptcy petitions filed during 1973 in the U.S. District Courts for the Western District of Texas--and 768 so far this year. May recorded an all-time peak of business failures--925--nationwide.

APPOINTMENTS—Speaker Price Daniel Jr. named Rep. Herman Lauhoff of Houston to House committees on revenue and taxation, natural resources and elections.

Daniel also named Rep. Chris Semos of Dallas to the House committee on appropriations, Rep. Phil Cates of Pampa to the committee on calendars and Rep. Jon Newton of Beeville to the committee on rules.

Susan Longley of Austin will manage Attorney General John Hill's campaign office.

Hill was reappointed chair-

man of the National Association of Attorneys General Consumer Protection Committee.

CROPS IMPROVE LITTLE—September crop predictions improved slightly over August, Agriculture Commissioner John White reported.

Texas cotton production is estimated at 3,180,000 bales, off almost 1.5 million from 1973. The August predictions were 3,050,000 bales. Sorghum production (off 122 million bushels) and soybeans (off two million bushels) remain little changed. Corn production also remained largely unchanged at 69,750,000 bushels (a nine million bushel decrease). The rice crop looks good, with producers expected to harvest 24,772,000 hundred-weight bags, a five per cent increase. Sugarbeets and sugarcane will also improve.

SHORT SNORTS—The Texas National Guard has been requested to take additional steps to increase security of federal arms and ammunition.

Rep. Dan Kubiak of Rockdale reaffirmed his request for investigation into cost of each step in cattle raising.

All voters in the November 5 general election must be registered by October 5. Registrations are valid for three years.

Secretary of State White refused to place the Socialist Workers Party candidates on the November ballot, holding its petition inadequate.

Rep. Bill Clayton of Springlake has added more support for House Speaker in 1975, claiming well over 100 of the 150 votes.

Attorney General Hill has appealed a federal court order that two major state reform schools be closed.

The State Board of Education meets with legislative committees and governor's office aides to discuss steps needed to strengthen school programs for 700,000 Mexican-American students.

The State Supreme Court, via appeal, will have a chance to rule on whether the Texas Railroad Commission has authority to order natural gas taken away from utilities in North Texas and diverted to Central and South Texas. A district judge here has ruled the commission has that authority, and the Austin Court of Civil Appeals agreed.

Also, the amount you pay for electric service is subject to an adjustment based on the price TP&L must pay for the fuels needed to generate electric power. Our fuel costs are now more than 80% higher than they were last year and this increased cost is reflected in your bill.

Texas Power & Light has always worked to keep the price of electricity as low as possible, consistent with maintaining adequate and dependable service. We will continue to do so in the future.

Out of Orbit

OLD PHILOSOPHER

Dear editor:

Before it gets out of hand and I have to issue clarifying statements saying it was taken out of context not to mention mis-quoted I want to say I made a big mistake in my letter to The Herald last week, probably the first one I've made prior to the ones in the letter before that, and I want to apologize.

The reason I want to apologize is that the mistake was inflationary and inflation is something we have ten times too much of already. Make that twenty times; things just went up again while I was writing this.

The mistake was that I gave the price of sugar by a pound bag instead of a 5-pound bag, making it read that sugar was now selling for over \$2 a pound.

Now this may seem like a harmless mistake but if you think so you don't understand the psychology of inflation, price-gouging division. That single error may have a far-flung impact on everybody's cost of living, with a chain reaction start-

ing in Cameron and spreading to the far corners of the civilized world. Actually it may go farther than that and get into Oklahoma or Louisiana and some portions of France.

Anyway, don't you know that when the sugar people hear that sugar has been reported at \$2 a pound and nobody has fainted, somebody in the outfit may say "Well, whatta you know, maybe we could get that much. Let's raise the price and see."

You see, inflation is caused by a lot of things, like for example dropping 100 billion dollars in Viet Nam with nothing much to show for it, but one of the other things is that people are so used to seeing the price of everything go up that they just shrug or bite their lip and go ahead and pay, and a lot of manufacturers and sellers have caught on and raising prices is now a national pastime.

So you see what I've done to the price of sugar. I apologize.

Yours faithfully
J.A.

The Family Lawyer

Gifted Aliens

Our immigration laws, which set quotas for entry into the United States, also provide loopholes for special situations. One of these loopholes allows preferential visas for aliens who have "exceptional ability in the sciences or the arts."

What does this mean? Take the case of a woman golfer, born in Australia, who applied not long ago for a preferential visa.

Was her ability "exceptional"? Yes, ruled the Immigration Service, because as a professional competitor she had won many major tournaments.

Was golf an "art"? Yes, ruled the Service, because it provided entertainment for millions of spectators.

Result: the visa was granted. By similar reasoning, a preferential visa was granted to a brilliant Japanese puppeteer and a spell-binding Australian lecturer.

But the standards of excellence

under this provision are high indeed.

Another case involved a Korean singer who was part of a duet. She was able to point to some favorable reviews by critics, but none that singled her out as an individual performer.

The Immigration Service decided that while she was doubtless capable as a vocalist, she was not "exceptional" enough to qualify for a preferential visa.

Furthermore, the skill itself must be one that is difficult to master. At one time or another, an Italian broom-maker, a Philippine auto mechanic, and an Italian hair stylist have all been turned down on the ground that their particular skill was too easily attainable.

As a commissioner explained in the broom-maker case, he was not convinced that the services of the applicant "would be substantially beneficial to the national economy, cultural interest, or welfare of the United States."

3 reasons for higher electric bills

If you're like most Texas Power & Light customers, the amount of your electric bill in recent months, and perhaps this month, is higher than it was at the same time last year.

There are three reasons why.

One major reason is increased usage of electric power. Air conditioning alone can account for a sizeable increase in your bill. During the summer of this year, there were many more days with temperature readings of 100 degrees or more than in 1973.

A second reason is that in March of this year the rising costs of producing and supplying electric power made it necessary for TP&L to obtain increases in the price of electricity.

Also, the amount you pay for electric service is subject to an adjustment based on the price TP&L must pay for the fuels needed to generate electric power. Our fuel costs are now more than 80% higher than they were last year and this increased cost is reflected in your bill.

Texas Power & Light has always worked to keep the price of electricity as low as possible, consistent with maintaining adequate and dependable service. We will continue to do so in the future.

Ground Beef, Pork And Carrots Team Up In Nourishing Loaf

A conscientious mother is continuously on the lookout for foods for the family menu that will build stamina as well as give satisfaction. The recipe for Wholesome Meat Loaf is one such double-barreled treat since it provides both good flavor and

good nutrition. The loaf is a combination of vegetables with ground beef and pork. Both of these meats provide high quality protein, the important B vitamins (riboflavin, niacin, thiamin, B₆ and B₁₂) and minerals (including iron), points out Reba Staggs, home economist of the National Live Stock and Meat Board.

Wholesome Meat Loaf

1½ pounds ground beef

1 pound ground pork
1½ cups soft whole wheat bread crumbs
½ cup grated carrots
½ cup milk
¼ cup chopped onion
¼ cup chopped celery
2 eggs, beaten
1 tablespoon Worcestershire sauce
1 teaspoon salt
¼ teaspoon pepper
Combine ground beef, ground pork, bread crumbs,

carrots, milk, onion, celery, eggs, Worcestershire sauce, salt and pepper, mixing lightly but thoroughly. Place mixture in a 9 x 5-inch loaf pan, spreading evenly. Bake in a moderate oven (350°F.) 1½ hours or until done. 8 servings.

WANT TO GET
RID OF SOMETHING?
CALL 697-6671

Cherry Meat Muffins Can Come to Aid Of Grounded Cook

Upon occasion winter weather can ground a woman since high winds and precipitation may suggest postponement of a shopping trip. Dinner need not be a disaster when the kitchen cupboard is well stocked to meet such an emergency. Canned meats, combined with other staples, can come

to complete the entree in flavorsome fashion.

Why wait for an emergency? Cherry Meat Muffins are a good choice anytime you want to practice economy at no sacrifice in flavor and nutrition. Be sure to keep them in mind for a Washington's birthday special.

Cherry Meat Muffins

2 cans (12 ounces each) luncheon meat
1½ cups soft bread crumbs
2 eggs, beaten
¼ cup brown sugar
1 tablespoon prepared mustard
1 can (21 ounces) cherry pie filling
Mash the luncheon meat with a fork and combine with

bread crumbs, eggs, brown sugar and mustard. Mix thoroughly and place equal amounts of the mixture into 8 to 12 greased muffin pans, filling ¾ to ¾ full. Bake in a moderate oven (350°F.) 20 to 25 minutes or until lightly browned. Serve with hot cherry pie filling as sauce. 6 to 8 servings.

4-H News

By Rodney Kruse

A Design For Discovery in 4-H training meeting was attended by 13 leaders from Thorndale, Cameron and Rockdale on September 9 in Taylor.

Leaders attending were Mr. and Mrs. Melvin Hirt, Brenda Westerman, Mrs. Bobby Scroggins, Suzanne Sims, Mrs. Bud Gray and daughter Tamli of Thorndale and Leroy Stephens of Rockdale, Mrs. William Winkler, Mrs. Charles Riola and daughter Rebecca, Mrs. Frankie Ehler and daughter Rosemary attended from Cameron.

This five county leaders meeting was given for a new concept in 4-H work, a child centered approach to 4-H as youth development. Leaders discussed what leadership qualities they wanted 4-Hers to have.

CORRUGATED STEEL DRAINAGE PIPE

It's Strong and Easy to install. Uses include road culverts, ditch crossovers, stock water supply lines, and driveways. Durable zinc-coated corrugated steel pipe is available in diameters 6 to 120 inches. Shipment can be made 1 to 3 days notice.

ETC, ETC

By Johnny Watkins

Some real smart people say that we are going to have a food shortage in the world pretty soon. Prices for beef, butter, eggs, don't reflect that fact.

There has been the thought that we should start a world food bank. That is people from all over the world who are more concerned with propagating the race than with feeding the bunch that already here would be the recipients of the food that's stored in the world food bank. Sounds nice doesn't it.

Now comes some fellow with his head on straight that says, "No this won't work for the reason that it would simply prolong the people problem. We have too many people in areas of the world that simply cannot produce enough food to feed themselves and they are still propagating. When they stop propagating, then we will start the world food bank."

Sounds cruel doesn't it. Sounds very un-Christian... but when you stop to think about it, it makes some sense. Did you ever stop to think that when you produce a crop, milo, cotton, grain no matter what your crops, you are selling your fertility. Fertility that is harder and harder to come by.

Someone down the line has to stop and think, after the fertility is gone from these farm lands in the U. S. what are our great grandkids going to do for something to eat.

Now getting more to home on this situation, lets talk about highly fed beef. It has been suggested that \$6 milo does not lend itself to having beef fed for 180 days. They are now suggesting that we graze these yearlings until they weigh 600 pounds and

then feed them for 45 days, just enough to get the grass color out of the beef.

What will this do? One it will cause a great reduction in the amount of beef that is available to housewife and mother. Secondly, we are going to have to reshape the tastebuds of a nation of people who have eaten high on the yearling for some years.

The reason for \$6 milo is because in lots of nations these people that are more interested in propagating kids than they are in getting their eye hoe and going to the field and producing something to eat. We've given it to them so long that they just know pore old Uncle Sam is going to send some more.

Like the Egyptians, they raise the price of oil to us and we sell them 100,000 tons of grain and collect our money in their money, which can only be spent in their country. Now we need oil, but what if we sell all our fertility to Egyptians and all of a sudden we need food. Do you think they would make the same trade.

Yes, I'm all for propagating, so are my bulls, but then I furnish the grass for them too just like all these nations that are still having kids.

That's another skinny ham in the smokehouse.

Quality High Prices Low

AUSTIN-Though cotton quality and yields from the Lower Rio Grande Valley harvest have been high, prices on uncontracted cotton remain lower than most farmers are willing to accept, according to Agriculture Commissioner John C. White.

Cotton is currently selling at 43-50 cents a pound and many growers appear to be holding back for better prices.

THIRD CUTTING of this African Star grass is being baled now in Rogers on a 3-acre plot planted Sept. 13, 1973 by W. H. McCormick.

Ray Broker of Rosebud is shown in the patch which provided over 100 bales to the acre. Protein count was 17.1 in 31 days.

County Agent's Notes

Use Fertilizers Wisely On Wheat, Small Grains

By Bill McCutchen

The time has come when we must use fertilizers wisely. Supplies are limited and the price is high. Fortunately, there are ways that we can increase the efficiency of plant nutrients applied for small grains.

Research in the Blacklands for the last twenty years has shown that the rate, time and method of apply phosphorus and nitrogen affect yield and profit from fertilization. Potassium generally is not needed and micronutrient problems are rare.

Phosphorus fertilization is very important since the small grain plant has a great

need for this nutrient during seedling development. The number of tillers relate directly to the number of adventitious roots. Without adequate phosphorus, fewer adventitious roots are produced.

In tests, where eighty pounds of phosphorus per acre were broadcast on the surface and harrowed into the soil, the average number of adventitious roots developed by January 15 was five per plant. The same amount of phosphorus applied with the seed at planting produced twelve adventitious roots. Top grain yields require maximum tillering.

Low rates of phosphorus with or near the seed also has increased seedling growth and the amount of winter pasture. On a phosphorus deficient soil, forty pounds of phosphorus P205 placed with seed produced about twice as much winter pasture as the same amount broadcast or banded between the seed drills.

You would expect grain yields to be higher, also, and they have been. The average increase has been eight more bushels of wheat per acre when phosphorus was placed in the furrow with the seed at planting.

Nitrogen is important, too. For top yields, plants should never be allowed to suffer for lack of nitrogen. Excess rates of nitrogen should not be used, since many varieties will lodge when high rates are applied. This presents some problems in nitrogen management.

When wheat follows grain sorghum or any other high residue grass-type crop, a fall application of nitrogen is necessary. Nitrogen may be placed in the soil just prior to planting or top dressed after the small grain is up to a stand.

The rate of phosphorus and nitrogen to use is a difficult decision to make. Research indicates that forty to sixty pounds of P205 with the seed will insure an adequate supply of this nutrient. There have been years when an eighty pound rate was profitable.

Fertilizers that contain nitrogen should not be placed directly with the seed. A separate fertilizer spout on the drill is necessary to minimize the danger of reduced germination, since it is nearly impossible to obtain straight phosphorus materials to put directly with the seed.

When wheat follows crops such as grain sorghum, a total of 60 to 80 pounds of nitrogen is needed and at least one-half should be applied in the fall. Thirty to forty pounds per acre may be adequate if wheat follows wheat. Remember, don't let the plant suffer for nitrogen. If, at any time, the lower leaves show deficiency symptoms - topdress with nitrogen. It will cost you grazing and grain for each day of delay.

Specialist Retires
Fred C. Elliott, Extension Cotton Specialist, for 28 years is retiring as of September 30. Fred is well known to Milam County Cotton producers and has been quite helpful to the cotton industry locally, statewide, and throughout the cotton belt.

I know that local producers have appreciated his work and join me in wishing him well.

Replacing Elliott will be Dr. Robert B. Metzger. Metzger has served as Extension Area Agronomist at Lubbock since 1967. Metzger has also been a technician in the foundation Seed Section at A&M.

Of The Texas Department of Agriculture
John C. White, Commissioner

Crop Prices Down . . . 1973 Was Good Year . . . Rain Slows Harvest . . . Many Honored Families

TEXAS FARMERS and ranchers don't have to be told that 1973 was a good year, but this year is another matter. The 1973 prices just haven't held up. Texas Crop and Livestock Reporting Service says that all farm products price index on August 15 was 13 per cent below last year although three per cent above the same time the previous month. Prices on livestock and livestock products were 35 per cent below last year and seven per cent above the previous month. That means that a beef animal that brought 34.90 cents a pound in August would have brought 54.20 at the same time in 1973. Hogs that brought \$36.20 a hundred (up \$3.80 over July 15 prices) would have brought \$55.80 on August 15, 1973. On the other hand, the price index on all field crops was 21 per cent higher than a year ago. Sorghum at \$5.03 a hundred was \$1.50 higher than a year ago. Upland cotton that brought 44.2 cents a pound was 9.2 cents above last year. But wheat was 19 cents a bushel-at \$4.05-below last year; and \$9.80 rice was \$1.20 below last year. Corn that brought \$2.75 a bushel on August 15, 1973 brought \$3.16 on August 15 this year. Corn was only \$2.74 a bushel a month earlier.

COMMISSIONER JOHN C. WHITE earlier released figures showing that Texas cash receipts for all crops and livestock in 1973 totaled \$6,467,923,000 (that's billions), which has to be a record. Production was better than in 1972, except in rice, pecans and fruits, and possibly a few other minor crops. Livestock cash receipts in 1973 in this State amounted to half of the total, \$3,673,825,000, which was an increase of a billion over 1972. Texas, as usual, was first of all the states in the production of cotton, grain sorghum, wool, mohair, watermelon, cabbage, spinach.

MORE RAIN over the State delayed harvesting, and Hurricane Carmen threw a scare into Texans and accounted for a part of the rain. Cotton harvest was judged 16 per cent completed, much farther along than the four per cent harvested at the same time in 1973. Fall plowing of cotton land is well along in the Valley and Gulf Coast. Rain across the Northern High Plains delayed wheat planting, but Texas-Crop and Livestock Reporting Service estimated that four per cent of the planting was complete. Oat planting was not that far along. More than half the grain sorghum has been combined in the State, and peanut harvest is about a quarter complete and also delayed by rain. Most of the first 1973 rice crop has gone to market. The first oranges and grapefruit from the 1974-75 crop in the Valley have gone to market. Yield is expected to be below the 1973-74 crop.

BEFORE AUGUST 31, the deadline for entering farms and ranches in Texas Department of Agriculture's Family Land Heritage Program, over 1,200 inquiries had been received. As checking of the mass of mail and applications continues, more than 500 Texas farms and ranches have qualified. Those families who have owned and used their farms and ranches 100 years or longer are qualified for the honor. As has been announced previously, special recognition will be given those families during State Fair ceremonies in October.

TEXAS COMMERCIAL slaughter plants reported 211 million pounds of red meat produced during July, which is an eight per cent increase over June's production and 13 per cent more than in July, 1973. The 1,341,000,000 pounds produced in Texas for the first seven months of the year was five per cent more than for the same seven months in 1973.

Pest Management Pays Off

There's an old saying about the "proof in the pudding." And when it comes to proof about the benefits of cotton pest management, it's a clear-cut case of a paying proposition.

When all the air had cleared and a close look was taken at the cotton pest management program in Texas during 1973, net profits had jumped an amazing \$1,203,529. That was an average net return of \$35 for every dollar invested by farmers in the pilot program which covered 36,000 acres of cotton in four of the state's major producing areas.

Profits were up mainly due to increased yields and decreased insecticide expenditures. Total yields were up 4,300 bales.

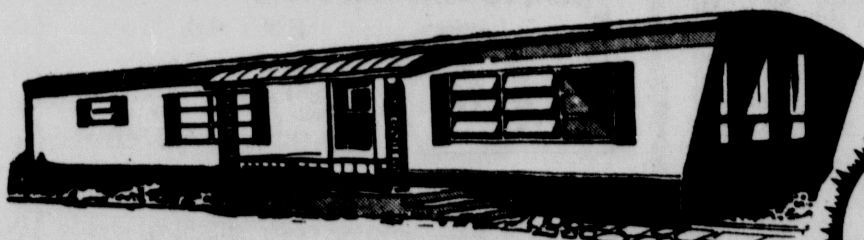

Counties involved in the program are Cameron, Willacy and Hidalgo in South Texas, Frio in Southwest Texas, Pecos and Reeves in Far West Texas, and Hill and Ellis in North Central Texas. Producers in all but

Frio County reaped higher net profits per acre, with the high being \$55.31 on irrigated cotton in the three-county area in South Texas. Profits were down in Frio County due to increased costs of a full-scale disjunct boll weevil control program.

The three-year program under the direction of the Texas Agricultural Extension Service began in 1972 when 33,000 acres were included. However, the program did not get underway early enough in the season to get a sound economic assessment the first year.

Coordinator of the pest management program in Texas is Dr. Raymond Frisbie, Extension entomologist headquartered at Texas A&M University. The program depends heavily on five county Extension entomologists plus some 28 field scouts who keep a close check on field conditions and insect populations during the cotton season.

HD Council Hears 4-H Fair Report

A report on the 4-H Project Fair given at the Millam County Home Demonstration Council meeting Sept. 9 showed that there were 358 entries ranging from lizards to pickles.

The report was given by Mrs. Riola, who also reported that there were 85 record books turned in for judging.

Three clubs, 12 members, two agents and one visitor were present at the meeting, called to order by Mrs. O. M. Brockman, chairman.

Mrs. Clyde Holliman, recreation chairman, led a game enjoyed by all at the meeting.

Clubs accepted the Council recommendations for 1974-75. The pecan show was discussed and voted to carry back to the clubs for further discussion.

Mrs. C. P. Beard is the new Council delegate for the New Salem HD Club following the resignation of Mrs. Preston Perry.

The agent discussed the state meet with the delegates and others who plan to attend the meeting in Amarillo Sept. 17-20.

The next Council meeting will be held Oct. 12 at the New Salem Club house.

HANOVER HOMECOMING

The annual homecoming at Hanover has been set for Sunday, September 22. There will be singing all day and a picnic lunch at noon.

Clubs Join For Silent Auction

The Business and Professional Womens Club and the Porcelain Arts Guild held a silent auction at the B&PW Clubhouse Monday evening.

The auction was a fund raising project for the Business and Professional Womens Club.

Refreshments of cookies and punch were served by both clubs.

Personal

Visiting over the weekend were the granddaughters and families of Mrs. Joe F. Bartek of Marak, Mr. and Mrs. George Knapke and family and Mr. and Mrs. Bernard Stuckley and son of Granger.

Virgie R. Hardeman, daughter of Mrs. Vivian J. Hardeman, Cameron, received her vocational nursing certificate from Austin Community College September 12. She is a 1972 graduate of Yoe High School.

Students Available For Jobs

A number of Yoe High School students are available for jobs after school and on weekends and this service will be handled through the counselor's office.

Rae Green, Yoe High counselor, said the students will do any kind of a job and payment is to be worked out between the student and the employer.

Anyone interested in hiring the students for yard, house or other kinds of work should call Miss Green at 697-3902 during school hours of 8 a.m. to 4 p.m.

Catholic Vows Unite Couple

Miss Jeannine Willie and James Dohnalik were united in marriage on Saturday afternoon, August 24, in Sts. Cyril and Methodius Catholic Church at Marak.

The bride is the daughter of Mr. and Mrs. E. M. Willie and granddaughter of Mrs. Mary O. Willie. The bridegroom is the son of Mr. and Mrs. John Dohnalik and grandson of Mr. and Mrs. Frank Zarosky.

The Rev. William Benish officiated at the double-ring ceremony performed by candlelight before an altar decorated with variegated carnations, galdioli and greenery. The acolyte was Ray Marak.

Mrs. Alfonse Tomek, organist, provided pre-nuptial selections and the traditional wedding march.

Given in marriage by her parents and escorted by her father, the bride chose a designer gown of white silk organza, enhanced by peau d'ange lace. Seed pearls outlined the decollete neckline and accented the bodice and the long tapered sleeves which ended in a band of scalloped lace. The dirndled skirt swept into a wateau train.

Her cathedral veil of bridal illusion, finished with a wide border of scalloped lace, was held by a Camelot cap of matching lace embroidered in pearls.

The bridal bouquet was a cascade of dainty feathered carnations, interlaced with baby's breath and multiple colored satin ribbons.

Miss Marilyn Willie, sister of the bride, served as maid of honor. Bridesmaids were Miss Denise Willie, the bride's sister, Mrs. August Dohnalik and Mrs. Edward Dohnalik, the groom's sisters - in - law. They wore identical gowns of yellow, pink, green, blue and orange polyester crepe. They carried bouquets of variegated carnations, accented with satin ribbons. They wore sprigs of baby's breath and miniature carnations in their hair.

Johnny Dohnalik, brother of the groom was best man. Groomsmen were August and Edward Dohnalik, brothers of the groom, George and Tony Dohnalik, cousins of the groom.

Mrs. Willie chose a gown of soft coral chiffon with

yellow and pink tulip design for her daughter's wedding. A floor length gown of green knit was chosen by Mrs. Dohnalik. They wore white orchid corsages.

After the ceremony the newlyweds, their parents and attendants received guests at a reception in the parish hall.

Miss Vanessa Marak registered guests. Miss Kathy Collins served punch and Miss Monica Miller served cake. Mrs. Eddie Stewart presided the groom's table.

A white satin cloth covered the table which held the bride's four-tiered cake. A silver candelabra surrounded by the bridesmaids nosegays centered the table. The groom's table, covered with green linen with matching lace was centered with copper urn filled with wheat and grapes. A chocolate

groom's cake was decorated with clusters of frosted grapes.

A barbecue supper was followed by dancing in the parish hall.

The bride is an honor graduate of Yoe High School and Temple Junior College. She is employed at Lone Star Gas Co.

The groom is a graduate of Yoe High and served four years in the US Air Force. He is employed at the Cameron Post Office.

A rehearsal dinner given by the groom's parents was held Friday evening before the wedding. The couple exchanged gifts and presented gifts to their attendants.

After a wedding trip to Oklahoma, Kansas and Colorado the couple now lives at 609 West First St., Cameron.

MR. AND MRS. JAMES DOHNALIK

Pre-Nuptial Party Fetes Bride-Elect

Miss Beatrice Tomek, bride-elect of Douglas Williams, was honored with a miscellaneous shower Sunday at the First National Bank conference room in Cameron.

The future bride's chosen colors of tangerine and white were carried out in the decorations. A silver candelabra served as a centerpiece.

Co-hostesses were Mrs. Charlie J. Tomek, Mrs. Bill Kincer, Mrs. Eugene Tomek, Mrs. Frank Hall, Mrs. James Caddy, Mrs. W. K. Leonard, and Mrs. James Sims. Also in the houseparty were Misses Judy Tomek, Lisa Leonard and Linda Hill.

Special guests were mothers and grandmothers of the bride and groom, Mrs. Clem Tomek, Mrs. Douglas Williams, Mrs. Frank Vasicek, Mrs. Steve Burtis and Mrs. Winfrey.

The couple will be married October 5 at Sts. Cyril and Methodius Catholic Church at Marak.

Birthdays Observed At Nursing Home

Residents celebrating birthdays during September at the Colonial Nursing Home will be honored Sunday, September 22, at 3 p.m. with a birthday party hosted by the ladies of Abiding Savior Lutheran Church.

Those to be honored include: Vincencie Mayer, Mrs. Alma Hux Crain, Mrs. Caroline Hertenberger, Mrs. Philomena Marak, Mrs. Ella Hooks Dobbins, Mrs. Eva David, Mrs. Thelma Patterson, Mrs. Montie Henderson and Mrs. Lula Elley.

Mrs. Dobbins, celebrates her 97th birthday on Friday.

Residents celebrating birthdays this month at the Cameron Nursing Home are Jennie W. Houston, Mrs. Alice Terry, Mr. Aaron Robbins, Mrs. Lula Wilkerson, Mrs. Myrtle Fikes, and Mrs. Cleo Bownds.

Birth

To Mr. and Mrs. Richard Crowe of Buckholts, a girl, Whitney Allison, 7 pounds 8 ounces, born September 8 ounces, born September 8 ounces, born 9:17 a.m. September 11 at Scott and White Hospital. Grandparents are Mr. and Mrs. Jack Shirley of Brownfield and Mr. and Mrs. Stanley Crowe of Amarillo.

Mr. and Mrs. Malcolm Marion of Seguin visited her parents Mr. and Mrs. E. B. Yager Sunday night.

Mrs. Leroy Massengale spent the weekend with her sister Mrs. Bailey Jones of Rosebud.

Local Club Seeks Funds For Contest

The Cameron 4-H Club is sponsoring several money making activities to raise funds for the Mr. and Miss 4-H contest. The nominees from the Cameron 4-H Club are Gery Hollas and Vanessa Marak.

There will be a car wash at Barrett's Exxon on September 21 instead of the previously scheduled Oct. 5. On September 20 and October 11 the club will have bake sales in front of the Citizens National Bank and the First National Bank in Cameron.

A raffle is going on at the present and will end on October 11. The drawing will be held October 11 at 4:30 p.m. at the Milam County Extension Office.

The club thanks Schiguts Department Store, J. C. Penney Co., Montgomery Wards, Culpeppers, Ben Franklin, Weld Hardware and Marak's Arco Service Station for the raffle and special thanks to those who participated in the White Elephant Sale.

IRS Charges Hearne Attorney

A Hearne attorney was arraigned today in U.S. District Court here on three counts of failing to file Federal income tax returns.

Mathis M. Ottea, Jr., 49, entered a plea of not guilty to all three counts of a July 10, 1974, criminal information which charged him with failing to file his 1970, 1971 and 1972 Federal income tax returns. U. S. District Judge Jack Roberts will set a trial date at a later time.

U. S. Attorney William S. Sessions said that, if found guilty, Ottea can be sentenced to a maximum of one year in prison, fined \$10,000, or both, together with the costs of prosecution, on each count charged in the criminal information.

THOMAS GREEN
Thomas R. Green, son of Mr. and Mrs. Randolph R. Green of Rt. 1, Burlington, recently completed a U.S. Air Force Reserve Officers' Training Corps field training encampment at Hurlburt Field, Fla.

During the encampment, cadets receive survival and small arms training and aircraft and aircrew indoctrination. They also have the opportunity to observe careers in which they might wish to serve as Air Force officers.

The cadet is a student at Texas A&M University. Cadet Green is a 1971 graduate of Rogers High School.

DWIGHT COLBERT
Dwight L. Colbert, son of Mrs. Helen M. Lewis of Cameron, has reenlisted in the U. S. Army at Ft. Knox, Ky.

Sgt. Colbert graduated from O. J. Thomas High School in May 1968 and enlisted in the Army in June. He completed basic training at Ft. Polk, La.

He is presently assigned to Company D, 19th Bn, 5th Tng Bde at Ft. Knox.

He was awarded a good conduct medal for the six years he just completed.

LS Reduces Australain Interests

Subsidiaries of Lone Star Gas Company have decided to reduce the scope of their exploration activity in Australia.

This decision, Lone Star noted, has been prompted primarily by unfavorable changes in Australia's investment environment, especially as related to oil and gas operations.

As a result, Lone Star plans to relinquish rights to about 7.8 million acres in the north central part of the state of Queensland.

Lone Star will apply for an extension of rights covering about 386,000 acres in eastern Queensland where exploration work to date has been inconclusive, and on which additional expenditures are not expected to be required in the near term future.

Will a boat float any better just because you financed it at a little country bank?

No, but if you finance it at Lott State Bank, your heart won't sink with the terms you get.

In a country bank like Lott State, we can follow our personal hunches about the quality of a man or woman with considerably more freedom than most big-city bankers can.

At Lott State, you see, the banker you talk with is the one who makes the loan decision — not some overgrown committee who'll never lay eyes on anything but your credit rating.

We'll take a look at your credit rating and your ability to repay us, too. But mostly we'll be taking a nice, friendly look at you, the individual.

And if we like the cut of your jib, you'll get your loan. For a boat. A car. Home improvements. A mortgage loan. The new recreational vehicle you want. A personal loan. Or whatever.

When we give you the loan, we'll do our best to give you terms you can live with. The kind that won't burden you down.

In a little country bank like Lott State, we'll go a long way to make you a satisfied customer. If you'll go just a little out of your way to do business with us.

Lott State Bank

P. O. Box 368 Lott, Texas 76656 817/584-3171

You get more out of a country bank.

Obituaries

Meier

Mrs. Annie M. Meier, 92, of Sealy and formerly of Cameron, died Sunday in a Sealy hospital.

Funeral was at 1 p.m. Tuesday at Marek-Burns-Laywell Funeral Home with the Rev. Bob Wimberly officiating. Graveside services were at 4:30 p.m. Tuesday in Sealy Cemetery.

Survivors are two step daughters, Mrs. W. T. Gann of Cameron and Mrs. Paul Henson of Grapeland; and a sister, Mrs. Major Daniels of Abilene.

Fesperman

Mrs. Louis Fesperman, 72, of Lott died Monday in a Rosebud hospital.

Funeral was at 2 p.m. Tuesday at Hoelscher Funeral Home with the Rev. Wyatt Tisdale officiating. Burial was in Union Cemetery at Durango.

Mrs. Fesperman was a member of the First Baptist Church of Lott.

Surviving are her husband; a sister, Mrs. Helen Mundell of Broken Bow, Okla.

Little

Mrs. Elmer Little, 43, of Milano died Saturday in an Austin hospital.

Funeral was at 2 p.m. Tuesday in Phillips and Luckey Funeral Home with burial in the Gause Cemetery.

Survivors are her husband; two sons, Raymond Bailey Little and Roy Lee Little, both of Milano; two stepsons, Earl Denson Little and Bob Randall Little, both of Gause; a daughter, Mary Charlene Little of Milano; a stepdaughter, Mrs. Ruby Lee Block of Lubbock; her mother, Mrs. Rosie Permenter of Lubbock; a sister, Mrs. Betty Jo Tumkoney of Lubbock; four half brothers, Richard, Edward and David Little of Lubbock and Walter Lee Little of Bryan; and five grandchildren.

Wachsman

Mrs. Barbara Wachsman, 85, of Rosebud and formerly of Westphalia, died Friday in a Rosebud hospital.

Funeral was at 10 a.m. Monday in the Catholic Church of the Visitation in Westphalia with the Rev. Gideon Stram officiating. Burial was in St. Mary's Cemetery, Westphalia.

Rosary was recited at 7 p.m. Sunday at Hoelscher Funeral Home.

Surviving is a nephew, the Rev. Leroy Berghold of Richmond, Iowa.

Johnson

Travis Haywood Johnson, seven-week-old son of Mr. and Mrs. Gerald G. Johnson of Rt. 2, Rockdale, was dead on arrival Friday at a Rockdale hospital.

Funeral was at 2 p.m. Saturday in Phillips and Luckey Funeral Home with the Rev. Dean Evans officiating. Burial was in the Minerva Cemetery.

Surviving are the parents; two brothers, James Robert and Allen Shane Johnson, and a sister, June Nichole Johnson, all of Rt. 2, Rockdale; and grandparents, Mr. and Mrs. L.H. Johnson of Cameron and Mrs. Elizabeth Dyer of Rt. 2, Rockdale.

Sanders

Mrs. Elmer L. Sanders, 62, of Rosebud died Thursday in a Rosebud hospital.

Funeral was at 10 a.m. at Hoelscher Funeral Home with the Rev. George R. Hearne officiating. Burial was in Woodland Cemetery.

Mrs. Sanders was a member of the First United Methodist Church.

Survivors are her husband; a son, Randall Sanders of Houston; a sister, Miss William Koppa of Rosebud; a half brother, Billy Koppa of Fort Worth; and a grandson.

McElreath

Weldon Bailey McElreath, 67, died Friday in San Antonio. He was born Feb. 25, 1907 at Mount Pleasant.

Mr. McElreath had been with Sun Oil Co. for 32 years, was active in baseball and basketball and was a Southwest Conference official. He served as president of the Southwest Conference Officials Association.

Funeral was held at 3 p.m. Sunday at Alamo Chapel in San Antonio.

Surviving are his wife, Mrs. Elizabeth McElreath of San Antonio; three sisters, Mrs. Eddie Oeta Moore of Commerce, Mrs. Lloyd Myrtle Lou Frank of Dallas and Mrs. Lura Calhoun of Glade-water; and a brother, W. A. McElreath of San Antonio.

Church Invites Public

Rev. Willie B. Dearmin and Associates of the First Church of Divine Science in Houston, will serve the First Spiritualist Church, 802 S. College St., Cameron, on Sunday, September 22 at 11 a.m. The public is invited to attend.

Baptists Seek To Raise \$1 Million

Texas Baptists, in an effort to help alleviate human need, are seeking to raise more than one million dollars this fall.

The exact goal is \$1,111,111.11.

It will be raised through the Mary Hill Davis State Mission Offering conducted among 2-million Texas Baptists in 4,200 churches and missions around the state.

The money will be reinvested in areas of human need from the Rio Grande River to the teeming, impersonalized metropolitan areas.

A home for runaway teenage girls in San Antonio -- daycare centers and counseling services -- ministry to those alienated from society -- new church sites in rapidly developing suburban areas --

These are a few of the ways Texas Baptists will spend the funds.

Of the \$1-million-plus goal, \$553,111 will be spent in the cities while another \$145,000 will be used to minister to two million people who live along the 89-mile Rio Grande River.

People -- from the urban areas like Brownsville and El Paso to the awesome and arid Big Bend area -- will be offered spiritual and physical aid.

The money subsidizes free medical and dental clinics, irrigation projects, water wells, instruction in the basics of homemaking, cooking, farming, resourceful crafts, building new churches and holding evangelistic crusades and Bible schools.

The funds also provide scholarships for Black and Mexican American students attending Texas Baptist colleges and for projects manned both by students and retired volunteers.

Last year, Texas Baptists raised a little over a million dollars for the first time in the history of the offering.

It's thinking about that \$250 seat--the one that was empty last Sunday.

Haven't you figured out what your seat at church is worth? Say the building--at yesterday's prices--cost roughly a hundred thousand. And there are four hundred seats. That's an investment of \$250 per seat.

That's little enough for a seat occupied regularly by a person eager to worship the Lord. (Men have given their lives for the Gospel.)

But to preach Christ to an empty seat--\$250 is a lot of investment in the man who isn't there! I realize my kind of arithmetic isn't likely to save souls. But it would do a lot for my blood pressure if just a few people in every congregation across the land would start thinking about that empty seat the way I do!

I don't mean the money. Just the fact that spiritual opportunities are here to be claimed ... and only when wasted do they cost us dearly.

KNOW WHAT SENDS MY PRESSURE UP?

STATE FARM MUTUAL AUTOMOBILE INSURANCE COMPANY - HOME OFFICE, Bloomington, Ill.

By Forrest Guess

It's time to congratulate the fans of both Cameron and Rockdale. The enthusiasm and pride in the schools of both towns is unsurpassed. The victory is only a part of the total picture of athletics and each team should be proud to represent, as best they can their respective cities. The fans not only furnish funds but a respect to the individual players and to the coaching staff.

It's evident that the Yoe squad is built by young men that display an unbeatable amount of pride. Pride enough to keep prepared throughout the off-season and the summer. This mark of character, win or lose, is a quality that any coaching staff must be proud.

Coach Cauley's philosophy of total team effort and no outstanding players has worked thus far this season. And the total team effort is what it is going to take to beat the Belton Tigers.

The scouts for the Yoe High squad said that the Belton team looked very impressive against Brenham. They look like they have been working out all year. The coaches continued by saying the team looks as impressive this year as did their 1973 semi-finalist squad.

During the booster club meeting Monday night Coach Cauley had the following remarks about the Belton Tigers. The Belton team is a typical of all Belton teams they are always prepared. They will beat you because of your own mistakes. They seem to always be able to capitalize on each mistake that their opponents make. The Tigers played real fine football against Brenham. To

beat this team we must play as close to mistake free football as we're capable of. We too must play a very sound defensive game. We're looking forward to this game Friday night. This would be a fine feather in our hat, to go into district play with three good solid wins. About last week's victory, we were pleased more this Friday than we were last Friday. We showed pose and character against Rockdale, we had to beat them and our men got with it.

I'll agree it took a team with character to beat the number ranked Rockdale team. The men again will be called on to show a strong team effort in order to beat this solid Belton team. In study of the Belton team it is evident that one or two players or even one or two good players will not be enough to stop Belton. Both fine squads are 2 and 0 for the season and this week one team will walk away with a blemished record. I'm going with the Yoemen and will pick them over Belton by 6.

Cougars Seek Win

Rosebud-Lott will try for a victory in Mart, Friday night. The Cougars thus far have been unable to secure a win when they fell to Marlin in the season opener and to West last week at home. The game will start at 8:00 at the Mart High Field.

The very young Mart team has 15 lettermen returning with 7 offensive and 6 defensive starters. The performers are back after a 4-5-1 season. Only three of these players played on the varsity as juniors.

The Rosebud-Lott Cougars will face a determined but inexperienced Mart Club. Leading the Mart team in strength are TB Garry Wright, FB Bud Medlock.

Cameron, Texas, Herald, September 19, 1974 Page 9

Undefeated Yoe, Belton Promise Furious Clash

The Belton Tigers will be in Cameron to add another season victory to their unblemished record. The Tigers found easy victory last week when they played Brenham at home.

The Tigers rolled past Brenham last week with an impressive offensive performance. Belton tallied 276 yards rushing and quarterback David Roepke was 50 percent in the passing department. Roy Steger the

regular starting quarterback was out during the contest because of a knee injury. He is expected to be back for the Cameron clash.

David Russel, HB rolled up 105 yards rushing against Brenham and Bryan Sweeney the other halfback accounted for 98 yards. Helping in the cause against Brenham was Eric Nelson who tossed in another 57 yards.

The Tigers lost only one game in their 1973 campaign which took them to the semifinals. The Tigers lost to Henderson and the Tigers availed a 12-1 season.

The Tigers team returns 4 offensive and 5 defensive regulars back from last year. Coach James Williams should be proud of powerhouse, Ted Williams (6'2", 220) center and kicking specialist. Two others that aided in last year's 12-AAA reign were LB-guard Jay

Warrick (188) and LB Robert Dominguez (175).

Bryan Hargrove, a possible all-stater will be ready against the Yoemen and will fill the split end and defensive end positions for the Tigers.

This fine Belton club has been ranked number one in the North zone of district 12-AAA. Ranked under Rockdale in the complete district lineup. The two year winners have formulated a scrappy team thus far this young season. The Tigers

this year just like in the years past never seem ready to settle for that number two ranking and they will come to Cameron to re-emphasize their readiness to win their district. With a win over Cameron who has beaten number one ranked Rockdale would logically place them above Rockdale in district 12-AAA.

Junior Boys Play Here Thursday

Seventh and eighth grade football teams will be at home this Thursday night. Both teams have suffered defeats in both games thus far this season. The two teams will lock pads with Bryan. The games start at 5:30 with the Yoe Yoe 7th and at 7:00 for the eighth graders.

The freshmen squad will face Belton this Thursday night in Belton. The freshmen had hard luck against Rockdale in pouring down rain. The young Yoemen have not tallied a win thus far. The young Tiger team of Belton is big and strong and will pose a tough battle for the Yoemen in their quest for victory.

The JV undefeated in play this season will also travel to Belton to score second victory. After last Thursday night's cancellation the JV team is ready to show Cameronites the potential they have. They walked past the Taylor Ducks in their opener in Taylor. The contest will start at 5:30 and 7:00 with the freshmen squad taking the field first.

Yoe Band Plans Half Time Show

A stunning half-time performance is on tap for Friday night. The "Going Band from Yoeland" will perform a short marching routine and will conclude with a patriotic selection.

The fans will participate in reciting the 'Pledge of Allegiance' during the ceremonies. It will be an unusual halftime that will add variety to Yoe High half-time performances.

During the Rockdale game the halftime ceremonies of both schools were canceled because of rain.

TALENT SPOTLIGHT

David Fincher 71

Joe Smitherman 72

David Fincher, a junior at Yoe High, is a starting tackle on the undefeated Yoe High squad. David weighs in at a strong 212 pounds and is 5' 11"

David has been chosen to play on both the starting offensive and defensive positions. He played these same slots during his jr. high football career.

David has his eyes open for the possibilities of playing college ball. His plans at this time is that he will attend Sam Houston State in Huntsville.

His hobbies include all phase of athletics and he enjoys watching football on T.V. His favorite college squad is the University of Texas.

David's parents are Mr. and Mrs. Millard Fincher of 705 E. 15th. David has one brother Rodney a sixth grader and one sister Melinda who is attending Temple Jr. College.

During the summer David worked in Temple doing construction work at Kings Daughters Hospital. David has shown outstanding ability in filling the offensive and defensive line. He made numerous outstanding blocks against the Rockdale Tigers. He was sidelined during most of the defense last week because of a bruised foot. David, number 71, stated on Tuesday that his foot was feeling better and he was ready to beat Belton.

Joe Smitherman, junior 205, 6'1" is on both offense and the defensive teams for Coach Ed Cauley. Wearing the number 72 Joe doesn't have much time to rest because he's filling the tackle position on offense and defense.

He is the son of Mr. and Mrs. Gene Smitherman of 1303 N. Davis. Joe has an older brother who quarterback the Yoemen squad Jeff who is a senior. His sister a cheerleader is an 8th grader this year.

The 16 year old junior has plans to attend college after graduation, with Baylor as being his first choice. His hobbies include musical talent, (playing the piano) and Joe also enjoys mechanics.

Jeff has been a life long resident of Cameron and participated in jr. high football. Jeff worked at KML radio station this past summer as a DJ.

Jeff wears Yoemen jersey number 72 and is a solid player for this undefeated Cameron team. He exemplified his readiness during the past weeks by providing Yoe running gapping holes. Without blocks by the fine Yoe interior line the offensive backs would have trouble in picking up valuable yardage.

LET'S BAKE PIE!

After a summer of outdoor cooking, picnic foods and other easy-to-do meals, it's fun to get back in the swing of things and bake a pie. Whether it's a dessert or main dish, a pie is satisfying to make and to eat. It's really not too hard--just takes a little practice and a few hints:

- Heat resistant glass or dull anodized aluminum pans are best.
- Use a pastry blender, 2 forks, or electric mixer to cut in the shortening.
- Sprinkle with the cold water, 1 tbsp. at a time. Mix gently with a fork just until the dough loses its stickiness and begins to form a ball. Shape the dough gently into a smooth ball with your hands--like a snow ball.
- Shape the dough into a flat circle on a lightly floured board or cloth.
- Roll from the center out with even strokes in all directions, keeping the edges round.
- Fold the pastry in quarters and lift into pan. Unfold, easing gently into pan. Avoid stretching which can cause shrinking during baking.
- Trim pastry overhang to 1" larger than the pan; turn and roll under evenly.

ELECTRIC MIXER PIE CRUST
1 c. all purpose flour
1/2 tsp. salt
1/2 c. - 1 tsp. shortening
2-3 tbsp. cold water

Measure flour, salt, and shortening into large mixer bowl. Mix at low speed about 1 minute, scraping bowl constantly. Add water and continue mixing and scraping bowl, just until the flour is moistened and dough begins to gather into the busters--about 10 seconds. Gather dough together with hands and press firmly into a ball. Roll out and place in an 8" pie plate. Complete with your favorite filling from the accompanying chart and you're in business!
